- Prompting & Prototyping
 - Cursor
 - Figma Make
 - Vercel / VO
 - Git / Github

Strategy & Alignment

- Service Design
- Journey Maps, Diagrams
- Engineering & Product Partnerships
- Discovery & Alignment methods

Data Storytelling

- Analysis & Data Flow Mapping
- Data Visualization Design

Colleagues know me for...

- Setting the bar for design quality
- Facilitation & trainings
- Community-building

INTERESTS

OUTDOORS

Hiking, skiing, biking, camping, traveling, visiting any garden

CREATIVITY

Illustrating, painting, interior design, sewing clothes & crafts, collaging

EXPERIENCE

Senior Product Designer

THE NEW YORK TIMES | DENVER, CO (REMOTE)

3.2022 - CURRENT

- Designing how people, processes, and technology interact within our in-house email and push messaging tools so that editorial and product teams to reach tens of millions of readers daily.
- Lead designer for our unified messaging platform project to unify and expand our tooling and send platform - a key enterprise priority for the Times subscription growth.
 - Synthesizing user needs and platforms priorities to create UX architecture and capability proposals in partnership with Product and Engineering leads.
 - Designing content generation, audience targeting, and ML-driven planning concepts, rapidly prototyping to test and validate with users.
 - Building alignment and advocacy for a user-centric design vision across stakeholder teams.
- Generative Design CoP co-lead for the Product Design function of 90+ designers.
 - Building resources and providing trainings to help designers understand how to best use generative ai development tools, and building community around the practice.
- Redesigned data reporting workflows for subscriber feedback and operational readiness so that mission leaders can more easily make data-driven business decisions.

Data Experience Designer

SELF EMPLOYED | REMOTE

3.2022 - CURRENT

Improving the way people interact with and interpret data through delightful and clear design. Services include infographic design, UX/UI design, art direction, and consultation.

Design Lead, Data Visualization & UX

DELOITTE CONSULTING | D.C.

3.2022 - CURRENT

- Led a team to redesign the analysis workflows and dashboards to help executives in a client company to better understand division health and SLAs.
- Designed workflows and features within a data-driven supply chain application for a government client, including the build out of a new design system. Required Secret clearance.

UX Design Engineer

BOOZ ALLEN HAMILTON | D.C.

3.2022 - CURRENT

- Led the design and front-end development of an in-house staffing application to more efficiently connect consultants to projects. Developed with Vue.js and bootstrap.
- Designed data visualizations that clearly articulate metrics related to staffing, contracts, and operational health for C-suite leadership in Tableau and Adobe Illustrator.

Creative Operations Manager

STAND TOGETHER COMMUNICATIONS | D.C.

1.2018 - 5.2019

- Led enterprise data reporting strategy and development for the creative team of 30+.
- Consulted firm-wide on designing for data reporting and project management best practices.

Supply Chain Manager

INVISTA | WICHITA, KS

6.2016 - 12.2017

Managed the planning and logistics of two chemical product lines to meet commercial sales goals while aligning with logistical realities between plant and business operations teams globally.

Graphic Designer

FREELANCE | REMOTE

12.2012 - 9.2017

Designed brochures, holiday cards, and infographics for clients in the Adobe creative suite.
